

SHERRI GOODMAN, SENIOR VICE PRESIDENT, GENERAL COUNSEL & CORPORATE SECRETARY, CNA

Sherri Goodman is Senior Vice President, General Counsel and Corporate Secretary of CNA, a non-profit research organization which provides analyses and solutions for national security leaders and public sector organizations. She is also the Executive Director of the Military Advisory Board for CNA's projects on National Security and the Threat of Climate Change and Powering America's Defense: Energy and the Risks to National Security.

Ms. Goodman served as Deputy Undersecretary of Defense (Environmental Security) from 1993-2001. As the chief environmental, safety, and occupational health officer for the Department of Defense, Ms. Goodman was responsible for over \$5 billion in annual defense spending, including programs on energy efficiency and climate change, cleanup at active and closing bases, compliance with environmental laws, environmental cooperation with foreign militaries, and conservation of natural and cultural resources on over 25 million acres of public lands. Ms. Goodman has twice received the DoD medal for Distinguished Public Service, the Gold Medal from the National Defense Industrial Association, and EPA's Climate Change Award.

From 1987-90, Ms. Goodman served on the staff of the Senate Armed Services Committee. Working for Committee Chairman Senator Sam Nunn, her responsibilities included oversight of Department of Energy nuclear weapons research, development, production and environmental remediation, as well as ratification of nuclear arms control treaties. She also practiced law at Goodwin Procter and worked as a defense analyst at RAND and SAIC.

Ms. Goodman serves on the boards of the Atlantic Council of the U.S., Energy & Environmental Systems of the National Academy of Sciences, Marshall Legacy Institute, and the Woods Hole Oceanographic Institution. She is a life member of the Council on Foreign Relations. She served on the Council on Foreign Relations' Task Force, Confronting Climate Change: A Strategy for U.S. Foreign Policy. She serves on the Advisory Board for the Council on Foreign Relations' Center for Preventive Action.

Ms. Goodman has published articles on climate change, energy, environmental security, weapons acquisition and nuclear energy and waste cleanup in a wide variety of publications, among them the Washington Post, The National Interest and Defense News. She is the author of *The Neutron Bomb Controversy: A Study in Alliance Politics*. New York: Praeger, 1983. She has testified before numerous committees of the U.S. Senate and House of Representatives on climate change, energy security, national security and environmental security. She has interviewed with the major news media, including NPR, CNN, ABC, BBC, Discovery and This Week in Defense News

Ms. Goodman has been an adjunct lecturer in international affairs and security at the Kennedy School of Government. She was an adjunct research fellow at the Center for Science and International Affairs at the Kennedy School of Government.

Ms. Goodman received a J.D. cum laude from the Harvard Law School and a Masters in Public Policy from Harvard's John F. Kennedy School of Government. She received her Bachelor of Arts summa cum laude from Amherst College.

Ms. Goodman is married to John Goodman. They have 3 children: Natalie, Robert and Matthew.
